(vi) Promoters' background:

When the company was incorporated, the following persons were the subscribers to the memorandum and their background is stated below:

Promoter**Mr. Aziz Al Kaiser:**

The Managing Director, Aziz Al Kaiser is a successful industrialist with an appreciable acumen and a vision of great proportion. A caring parentage and an enterprising family upbringing helped him hone his leadership skills and qualities from childhood. Beyond business, he takes profound interest in art, culture and sports. Having completed graduation from UK in Business Management, Kaiser joined his family business. Within a brief span of time; he helped lead the Group to a major spell of diversity that contributed to the Group's surge forward with strong corporate governance. He also contributed towards the implementation of Group's major investment from grassroots until completion of the projects and made Partex as a household name in the country. Currently Mr. Kaiser is leading 21 different companies and added more value to the group's surge with more corporate stakes in banking, insurance, shipping and capital market.

Mr. Kaiser is the Chairman of the City Bank Ltd. He has contributed tremendously in transforming the management structure and outlook of City Bank from traditional banking system to modern day banking. Under his astute stewardship, the first time of its kind in the country, The City Bank Ltd. introduced American Express Corporate Credit Card under his leadership. Having a passion for cricket the private sector investment wizard held posts of advisor, Vice President and Director of Bangladesh Cricket Board. He is very well known socially and holds membership of many social clubs in Dhaka city. Having a passion of Sports, he introduced Partex Sporting Club. He is also the president of Noakhali Diabetic Association (M.A. Hashem Diabetic Hospital) and President of the Governing body of M.A. Hashem College. Mr. Kaiser is also the founder life member of NSU Trust and the Member of the Board of trustees of the North South University.

Aziz Al Mahmood

Aziz Al Mahmood completed his graduation from the US International University, based in London. Mr. Mahmood joined Partex Star Group at an early age. With his inherent quality of leadership and pragmatic outlook, he became one of the Group's board of directors within a very short time. He played a vital role in incorporating the information technology that made the group's activities prompt and easier. It entirely changed the traditional mode of production, trading, export and internal communication system.

He also involved himself in the Group's functional, productive and financial streams. Mr. Aziz Al Mahmood's diverse leadership qualities as Managing Director of Partex Star Group's Key units have made all the limited companies profitable. Aziz Al-Mahmood is a businessperson who has been the head of 16 different companies. He received an undergraduate degree from Alliant International University and an undergraduate degree from Richmond, The American International University in London.

Adhesives is a unique commodity that links grassroots levels with high societies and traditional practices with emerging technologies. In Bangladesh, Adhesives are using backward linkage materials for Board, Door, Leather, Footwear, Plastic, Household and Paint Industries. Adhesives is one of the prospective industries in Bangladesh. It has enough scope for both vertical and horizontal expansion in terms of economic return and social benefits. Adhesives is small capital-intensive, with labor costs in the region of 5% to 7%.

This sector occupies an important position in relation to the manufacturing sector in terms of gross output, value addition, employment generation, poverty alleviation, income generation and a socio-economic benefactor for the country. However, till now Adhesives industry occupies only a modest position in Bangladesh economy way below its true potential. The average growth of the Adhesive Industries in Bangladesh is 30%. The most common manufacturing items are Rubber Adhesive, Resin Adhesive, PUR Adhesives, Distemper Adhesive, Solvent Cement, Hot Melt Glue, Super Glue, Silicone, Wood Preservative, NC Thinner, Spray Paint.

The leader of these Industries are Pidilite Industries Ltd., Star Adhesives Ltd., RFL, Berger Paint Industries Ltd., Fast Group, Bengal Group. The most common name of the product of these industries are FEVICOL, Mr. FIXIT, FEVIKWIK and STAR BOND, GUM KING. Star Adhesives Ltd. is most modern Adhesives Manufacturer in Bangladesh, Star Adhesives Ltd. is intending to explore its market not only in Bangladesh but also throughout the world. As there are versatile opportunities to export adhesive to the seven sisters of Indian Territory. Meeting up the domestic demand is one of the main missions of the company, so as Bangladesh can become self-sufficient in the manufacturing of Adhesives. The company is continuously increasing market to achieve revenue remarkable growth above the industrial average to become one of the top 3 adhesives company in Bangladesh. Such capital elevation might accelerate the company's operation to a greater extent in future.

Reason of fluctuation:

Revenue:

It is observed from the above table, the overall sales increased over the years as the Company's productivity increased.

Other Income:

Other income has increased in line with the regular sales.

Total Income:

Since Revenue is increased, so naturally total income is increased.

Cost of Materials:

The costs of materials to revenue are consistent over the years.

Finance Cost:

The company has taken short term and long-term loan from bank in last five years for importing raw materials, constructing factory building and procuring new machineries. So the finance cost and bank charge increased and the trend is relevant to the production and also consistent with the revenue.

Depreciation and Amortization:

The increase of depreciation is relevant with the procurement and installation of machineries. No significant changes have been occurred. The company amortized its capital expenditure during the last five years.

Other Expenses:

The company did not incur any other expenses other than regular expenses during the last five years.

Changes of inventory:

There has been increasing of installed capacity and sales volume over the year. The demand for products is also increasing. Therefore, SAL has to maintain sufficient amount of inventory in order to meet the sales order. Thus, inventory is increasing year to year.

Net profit before and after Tax:

The growth of net profit before and after tax is consistent with the growth of the revenue. No unusual changes have been occurred during the last three years on the above matters.

Earnings per Share:

Earnings per Share are properly calculated through using weighted average number of ordinary shares for each year.

(d) Known trends demands, commitments, events or uncertainties that are likely to have an effect on the company's business;

However, there are no known trends, events and/or uncertainties that shall have a material impact on the company's future business, the business operation of the Company may be affected by the following events:

- Decrease in the demand of building material;
- Increased production cost;
- Decrease in product selling price;
- Increased Competition;
- Scarcity of Electricity and raw materials;
- Govt. Policy Changes towards the industry;
- Political unrest;
- Natural disaster.

<i>Source : DSE website</i>			

Average market price of similar stock based valuation (Assumption) 1. The average month end close price of the peer Company from June 2020 to August 2021 is considered.

Rationale for choosing these 3 Companies:

There are thirty-one Pharmaceuticals & Chemicals companies listed in the capital market. Among the thirty-one, SAL has taken three companies because SAL's product mix matches to these three companies. The management of the Company in consultation with the Issue Managers have set the issue price at Tk. 10.00 each at par value.

Risk Factors and Management's Perceptions about the Risks

Section Contents	
(I)	Internal risk factors
(II)	External risk factors may include among others

The risk factors as predict by the management along with the proposals to address the risk, if any, unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section. Some of the risk factors that Star Adhesives Ltd. is discussed below along with the management perception about the related risks.

The disclosures of Risk factors shall include, where applicable, the following:

- (i) Internal risk factors;
- (ii) External risk factors.

(i) Internal risk factors may include, among others:

a) Credit Risk;

This is the risk of default on a debt that may arise because of default by the borrower to pay the loan. In operating, any business there is always credit risk lies in the business. As there is always lending and borrowing between parties in the form of money and goods.

Management Perception

Management has credit policy in place and exposure to credit risk is well monitored. In order to control the credit risk, the management ensure strong credit control and collection policies. SAL have highly dedicated team to maintain credit policy.

b) Liquidity Risk;

The risk that a company may be unable to meet short-term financial requirements. This usually occurs due to the inability to convert its current assets to cash without a loss of capital or income. Liquidity is a common phenomenon of the business.

Management Perception

Star Adhesives Ltd. is doing its level best to manage working capital management in efficient way to maintain liquidity risk. Management is in direct supervision to the issues relating to accounts payable, inventory and accounts receivable efficiently.

c) Risk associated with the issuer's interest in subsidiaries, joint ventures and associates;

If the subsidiaries make loss, it affects parent company's balance sheet. In case of associate, there is chance of decline value of investment in associate company. As for joint venture, a joint venture (JV) is a business arrangement in which two or more parties agree to pool their resources for the purpose of accomplishing a specific task. This task can be a new project or any other business activity. In a joint venture (JV), each of the participants is responsible for profits, losses and costs associated with it.

Management Perception

Since SAL has no subsidiaries, joint ventures and associates concern. Therefore, this risk is not applicable for this Company.

d) Significant revenue generated from limited number of customers, losing any one or more of which would have a material adverse effect on the issuer;

There is risk involved in having limited number of customer and losing of that particular customer has negative impact on company's sales and cash flow as well.

Management Perception

At present SAL has wide spread distributed sales network across the country. Moreover, SAL management is always keen to find out new buyers to boost up the sales. Therefore, it does not dependent on any particular or limited number of customers to operate its business. Moreover, its reputation in the market always gives an extra cushion.

e) Dependency on a single or few suppliers of raw materials, failure of which may affect production adversely;

There is also risk involved in having limited number of suppliers as well. Single or few suppliers may exploit the company by price hike, untimely delivery and low quality of product.

Management Perception

SAL is not depended on a single or few suppliers of raw materials. SAL has a good number of vendors for each ingredient and services, the company has more than one approved vendors. It uses to conduct vendor audit and its concerned professionals are very conscious regarding the vendor issue. Further, SAL assumes that sourcing of raw material would be comparatively easier in times to come as due to globalization, the world economy opened much more than it was in older days and world is becoming like a global village. Hence, the risk is not applicable for it.

f) More than 20% revenue of the issuer comes from sister concern or associate or subsidiary;

Having 20% revenue generation from sister concern or associate or subsidiary makes issuer dependent on others companies. Hence, there is dependency risk.

Management Perception

Since SAL has no subsidiaries, joint ventures and associates concern. So, this risk is not applicable for this Company.

g) Negative earnings, negative cash flows from operating activities, declining turnover or profitability, during last five years, if any;

Negative earnings, negative cash flows from operating activities, declining turnover or profitability is the going concern risk for the entity.

Management Perception

The company doesn't have any negative earnings and declining turnover or profitability during last 3 years. The business SAL is in uptrend and expected to be in this line for a significant period of time due to Government policy and increased demand of Tiles because of Urbanization and changes in peoples taste. So there is no threat for going concern.

h) Loss making associate or subsidiary or group companies of the issuer;

When associate/subsidiary/group companies of the issuer are loss making, it affects the issuer and there is negative impact on cash flow of issuer and Balance Sheet as well.

Management Perception:

SAL do not have any investment in subsidiary, associates or group companies.

i) Financial weakness and poor performance of the issuer or any of its subsidiary or associates;

Financial weakness and poor performance of the issuer have negative impact on the company. As a result, it will be tough to pay loan interest, debt service and dividend. Future growth will be hampered.

Management Perception

Sales is one of the key indicators of success of a business, there is good margin of profit SAL has been experiencing with increasing sales growth which is boosting up the profitability for last five years. At present, none of the sister concern of SAL is in financial weakness or experiencing poor operational issues.

j) Decline in value of any investment;

If investment value decline, it will reduce the profit and assets as well.

Management Perception:

SAL does not have any investment.

k) Risk associated with useful economic life of plant and machinery, if purchased in second hand or reconditioned;

There is obsolescence risk relating to plant and machinery If the machinery is purchased in second hand or reconditioned, there high risk of repair and maintenance which has impact on profitability of the company.

Management Perception

SAL does not purchase or use any second hand or recondition plant and machinery. Therefore, it is not applicable for it.

l) Adverse effect on future cash flow if interest free loan given to related party or such loans taken from directors may recalled;

It is loan given and taken from related party and directors as well. If company gives such loan without interest to related party, there is interest burden for the company if the money was taken as loan. On the other hand, if such loan is taken from directors, it will have an impact on the cash flow to pay off the loan to the Directors.

Management Perception

This risk is not applicable for SAL.

m) Potential conflict of interest, if the sponsors or directors of the issuer are involved with one or more ventures which are in the same line of activity or business as that of the issuer and if any supplier of raw materials or major customer is related to the same sponsors or directors;

In these cases, there is high chance of compromise among the related companies because of conflict of Interest.

Management Perception

No SAL 's sponsor or director is engaged in same line of business of the issuer Company. No supplier of raw materials or major customer is related to the same sponsors or directors. Therefore, such risk is not relevant to SAL.

n) Related party transactions entered into by the company those may adversely affect competitive edge;

Related party transaction of the issuer creates conflict of interest, which reduces the competitive advantage of the issuer.

Management Perception

SAL did not engage any such related party transaction, which may adversely affect competitive edge.

o) Any restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement for debt or preference shares or any restrictive covenants of banks in respect of the loan or credit limit and other banking facilities;

All information must be known to the potential investor so that investor's interest may not be hampered in future. So, any restrictive covenants, if it goes against potential investors, will make investors in threat.

Management Perception:

There are no restrictive covenants in any shareholders' agreement, sponsors' agreement or any agreement relating to debt or preference shares or any restrictive covenants of Banks in respect of loan or credit limit and other banking facilities.

p) Business operations may be adversely affected by strikes, work stoppages or increase in wage demands by employees;

In such case, company's business operation will be hampered.

Management Perception:

Employee unrest is part of business and it is important to deal with labor unrest efficiently. SAL has different incentive packages for their employees so that they can be beneficial to such package. Because they believe that employees are very important part of the business.

q) Seasonality of the business of the issuer;

It is the risk involving that company is not doing business round the year.

Management Perception:

There is no seasonal risk for this kind of business as the products of the company is sold over the years.

r) Expiry of any revenue generating contract that may adversely affect the business;

This is the risk of losing customers affecting future sales.

Management Perception

SAL has no fixed-term revenue-generating contract with any parties the expiry of which may adversely affect the business of the company. The nature of the business of the company is that its production is a continuous process based on the orders from the distributors across the country. Hence, there is no question of affecting the business SAL due to expiry of revenue generating contract.

s) Excessive dependence on debt financing which may adversely affect the cash flow;

Excessive dependence on debt causes huge interest burden of the company and high risk of insolvency that may result in bankruptcy.

Management Perception:

The Company is more focused on equity financing and has been reducing debt dependency. The company raised its paid up capital recently and paying off amount of debt. For last five years we have been reducing its dependence on debt financing.

t) Excessive dependence on any key management personnel absence of whom may have adverse effect on the issuer's business performance;

Excessive dependence on key management affects the business if the management is changed in future, which will create vacuum. Besides, if the key management personnel is of bad intention, excessive dependence will also affect the business.

Management Perception:

Corporate Governance Guideline is well practiced in SAL. The company also has a well-placed structure. So any change in the key management can be replaced with capable professionals.

u) Enforcement of contingent liabilities which may adversely affect financial condition;

It is the future burden of liabilities that the investors will take on their shoulders. Contingent liabilities reduced the assets or create obligation to pay the liabilities.

Management Perception:

The Company does not have any contingent liabilities, which may adversely affect financial condition.

v) Insurance coverage not adequately protect against certain risks of damages;

Insurance ensures and protects to deal with uncertainty of future material loss/damage. Therefore, insurance coverage is important for the business.

Management Perception:

SAL have different insurance coverage for all the relating issues that are risky to operating our business.

w) Absence of assurance that directors will continue its engagement with Company after expiry of lock in period;

Directors run the company with the accumulated finance from public and other financing source. If directors discontinue running the business, there will be negative impact on business and share price as well.

Management Perception

SAL directors are involved in the business and they will continue the business after expiry of lock in period as per the company act.

x) Ability to pay any dividends in future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditure;

Dividend payment is highly dependent on company's ability to generate positive cash flow from operating profit of the business. If company cannot earn good amount of profit from operation, it is unlikely to pay dividend.

Management Perception:

SAL has been a profitable entity over a long time and the profit is on the uptrend. So it is well perceived that SAL will be able to pay dividend from our earning profit.

y) History of non-operation, if any and short operational history of the issuer and lack of adequate background and experience of the sponsors;

History of non-operation indicates weak operational management of the Company. Non-operation leads to negative cash flow, incurring of losses and bankruptcy in worst-case scenario.

Management Perception:

Such case did not happen in the history of SAL.

z) Risks related to engagement in new type of business, if any;

If it is new business, there is risk of viability of the new business.

Management Perception

Right now, SAL has no plan to engage in new type of business.

aa) Risk in investing the securities being offered with comparison to other available investment options;

If the issue price goes down after floating, there is investment risk for the potential investors.

Management Perception:

SAL are profitable entity over long time and it has been operating its business efficiently. Therefore, it is not risky in investing securities in comparison with other available investment option.

bb) Any penalty or action taken by any regulatory authorities for non-compliance with provisions of any law;

It creates a negative impression on the issuer.

Management Perception

No penalty or action taken by any regulatory authorities for non-compliance with provisions of any law against the company;

cc) Litigations against the issuer for Tax and VAT related matters and other government claims, along with the disclosures of amount, period for which such demands or claims are outstanding, financial implications and the status of the case;

If any kind of Litigations against the issuer for Tax and VAT related matters and other government claims, along with the disclosures of amount, period for which such demands or claims are outstanding, financial implications and the status of the case.

Management Perception:

There are no litigation involving Taxation.

dd) Registered office or factory building or place of operation is not owned by the issuer;

The company should own factory building. Otherwise, there is risk of hike in factory rent in the years to come and threat of shifting the factory as well.

Management Perception:

The Company owns the registered & factory office building. Therefore, it is not a risk.

ee) Lack of renewal of existing regulatory permissions or licenses;

In this case, company is not following the law to renew its all licenses.

Management Perception

A dedicated team supervises renewal processes of all the regularity permission/licenses. Therefore, risk with regard to lack of renewal of existing regulatory permissions/licenses is very remote.

ff) Failure in holding AGM or declaring dividend or payment of interest by any listed securities of the issuer or any of its subsidiaries or associates;

Failure in holding AGM or declaring dividend indicates the lack of compliance to the regulatory rules. Failure of payment of interest indicate the poor cash generation to the company to pay interest and debt service. The overall impression will be negative for the company.

Management Perception

SAL does not have any listed securities and it does not have any subsidiary or associates.

(ii) External risk factors may include among others:

a) Interest rate risks;

Interest rate risk is the risk that company faces due to unfavorable movement in the interest rates. Changes in the government's monetary policy along with increased demand for loans/investments tend to increase the interest rates. Such rises in interest rates mostly affect companies having floating rate loans or companies investing in debt securities.

Management perception

The Management of SAL always emphasizes on the management of its finance to an optimum capital structure of the company, so that the cost of capital remains minimum. The management prefers to procure long-term loan with minimum interest rate and the short-term fund with reasonable competitive rate. Moreover, the company has been repaying borrowed funds on a continuous basis. Additionally, the management of the Company emphasizes on equity base financing to reduce the dependency on borrowing, suggesting the management perception for interest rate risk to have a minimal impact on the company's profitability and viability.

b) Exchange rate risks;

Exchange rate risk occurs due to changes in foreign currency exchange rates. As the company imports equipment from abroad and earns revenue in local currency, unfavorable volatility or currency fluctuation may affect the profitability of the company. If exchange rate is decreased against local currency opportunity will be created for generating more profit.

Management perception

The company receives the entire sales proceeds in local currency and makes majority of the import payments in foreign currency. So, for a given depreciation of Taka against a particular foreign currency like US Dollar, the import payment may get affected. In that situation the product price will be higher to cover up the additional charges. This will not hamper the regular sales trend as the other local manufacturers as well as the importers of finished goods will also be affected by the same.

c) Industry risks;

The Company is operating in an industry where there is a gap between demand and supply. Although ceramic tiles business has a huge demand in the local and international market, chances are there that excessive competition may hamper the company's business. Increasing competition may force Star Adhesives Ltd. to reduce prices of their products which may cause dropping of their revenue and margin, and/or decrease its market share, either of which could have an adverse effect on their business, financial condition and results of operation.

Management Perception

Star Adhesives Ltd. is engaged in manufacturing different types of ceramic tiles maintaining optimum quality with growing customer satisfaction. The business has a huge demand and government policies are also in favor. Moreover, SAL is still concerned about the market competition and its highly competent research team always working for the development of products. In addition, there are only few recognized competitors of similar size in the country, which allows the benefit of economics of scale when competing with new entrants.

d) Economic and political risks;

Bangladesh is prone to serious unrest in the political condition, which produces Hartal, Road-Block and many other barriers to the business. This could also propel the cost of the product upwards.

Management Perception

Although the country has passed through political turmoil in the last decade, a sound political atmosphere is prevailing these days and expected to be continued in future.

e) Market and technology-related risks;

Market risks refer to the risk of the adverse market conditions affecting the sales and profitability of the company. Mostly, the risk arises from falling demand for the product or service, which would harm the performance of the company. On the other hand, strong marketing and brand management would help the company to increase their customer base. Technology always plays a vital role for any business for ensuring better product quality, for providing better services to the customers and for minimizing costs. SAL operates in a technology based industry and continuous technological improvement is an integral part of this business. Obsolete technology or machineries will make it difficult for any company to sustain in such a competitive industry.

Management Perception

Strong brand loyalty of the company's products to its customers has enabled the company to capture significant market share in the sector. In addition, the company is continuously penetrating into the market and upgrading the quality of the products to minimize the market risks. Star Adhesives Ltd. is always aware of technological advancement in the industry and adopt very timely to keep the operational efficiency at the highest achievable level. The management frequently visit the other foreign factories with similar line of business and technological fair in abroad for up-gradation of technological and/or software.

f) Potential or existing government regulations;

The company operates under Companies Act 1994, Customs Act 1969, and Labor Law 2006, Income Tax Ordinance 1984, Income Tax Rules 1984, Value Added Tax (VAT) Act 1991, Value Added Tax (VAT) Rules 1991 and other related regulations. Any abrupt changes of the policies made by the regulatory authorities may adversely affect the business of the company.

Management Perception

Ceramic Tiles manufacturing is a vital sector for the growth of the economy of Bangladesh. Government policies are crucial to maintain the sustainability and growth of this sector. The Government is aware of this fact. Hence, it is rationally expected that any undue tax or duty will not be imposed that may adversely affect the sector's sustainability. Rather, the Government is keen to support the industry. Finally, any changes in VAT, tax, or duty structure will affect all the operators in the industry. However, SAL has the greater resistance ability due to its cost-efficient operation process.

g) Potential or existing changes in global or national policies;

Changes in the existing global or national policies can have either positive or negative impact on the Company's profitability. The performance of the Company may be affected due to unavoidable circumstances in Bangladesh, as such any structural change in Ceramic industry, war, terrorism, political unrest, natural and man-made disasters may adversely affect the industry and economy in general.

Management Perception

Bangladesh is gradually emerging as a global hub of ceramics industry due to the policy support of the incumbent government. Bangladesh's ceramics industry has experienced 200 percent growth in production in the last five years. This growth momentum is expected to sustain for a considerable period due to the robust development of the real estate sector and rising living standard of the people in the country. The industry is also positioned to expand rapidly in the global market with its high-quality products, low labor costs and creative entrepreneurs. In this prevailing environment the imposing of any rules/policies or withdrawal of any facility which may adversely affect the growing business of SAL.

h) Statutory clearances and approvals those are yet to be received by the issuer;

If any kind of statutory clearances and approvals those are yet to be received by the issuer.

Management Perception:

The company has collected all the statutory clearance and approval to operate the business. The necessary update and renewal is a continuous process. Hence, there is a limited degree of such risk associated with the company.

i) Competitive condition of the business;

SAL is operating in a free market economy regime. The company might have to face stiff competition from its competitors. Easily availability of global products in the local markets adds to the competition, challenging the profitability of the business.

Management Perception:

Bangladesh is the prime source of cheapest labor in the world, gaining comparative advantages for its industries over their global competitors. Other overhead costs are also low in Bangladesh. As a result, the company has been able to maintain its cost of products most competitive. Moreover, over the last few years the company has built a trustworthy relationship with its customers, which helps the company avoid competition with others.

j) Complementary and supplementary products or services which may have an impact on business of the issuer;

If any kind of complementary and supplementary products or services which may have an impact on business of the issuer.

Management perception

The Company has not faced any challenges relating to supplementary and complementary products and Management are concerned with the issue. In future, if necessary, management may diversify the product to be competitive over the competitors.

k) Revenue generated from limited number of customers, losing any one or more of which would have a material adverse effect on the issuer;

There is risk involved in having limited number of customer and losing of that particular customer has negative impact on company's sales and cash flow as well.

Management perception

Star Adhesives Ltd. has a widespread distributor network across the country. The management team of the company is highly qualified, trained & skilled professionals, well experienced and extremely devoted. The management team is in continuous effort to grab new customers, so this risk area is unlikely to pose any threat in SAL 's growing business trend.

l) Dependence on debt financing and highly leveraged which may adversely affect the cash flow;

Dependence on debt and highly leveraged causes huge interest burden of the company and high risk of insolvency that may result in bankruptcy.

**Independent Auditor’s Report
To the Shareholders of
STAR ADHESIVES LIMITED**

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Star Adhesives Limited** which comprise the Statement of Financial Position as at 30 June 2021 and Statement of Profit or Loss and Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended 30 June 2021, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements of the Company give a true and fair view of the financial position of the Company as at 30 June 2021, and of its financial performance and its cash flows for the year then ended 30 June 2021 in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code), Bangladesh Securities and Exchange Commission (BSEC) and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) Bye Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S.L.	Key Audit Report	How our audit addressed the key audit matter
1.	<p>Valuation of Inventories Refer to note 06 to the financial statements. Inventories represent BDT 111,367,344 of the Company; inventories are thus a material item to the Financial statements. As described in the accounting policy note 2.13 to the financial statements, inventors are valued at the lower of cost or net realizable values. As such, management is</p>	<ul style="list-style-type: none"> • Tested the operating effectiveness of key controls over Inventories; including observing the process of management’s Year-end inventory count. • Verified a sample basis the net realizable value by comparing costs to recent selling prices and assessing the

	<p>required to make judgments in determining whether inventories are being appropriately valued. Volume of inventories being held by the company at the reporting date and the complexities involved in the accounting and presentation thereof, Inventories has been considered as a key audit matter.</p>	<p>reasonableness of any resulting write down of inventory items.</p> <ul style="list-style-type: none"> • Performed cut-off tests to determine that the purchases and sales of the inventories have been captured in the correct accounting period. • Reviewed the historical accuracy of inventory provisions and the level of write-downs.
2.	<p>Appropriateness of revenue recognition and disclosures on the impact of the initial application of IFRS 15.</p> <p>Refer to note 22 to the financial statements. As described in accounting policy note 2.10 to the financial statements, the Company recognizes revenue upon transfer of control as per the newly adopted IFRS 15: Revenue from Contracts with Customers. The Company has reported total revenue of BDT 412,414,138 after VAT.</p> <p>The Company's primary customers are industrial Adshives and glue user for manufacturing of Door, Board & Furniture and selling through Distributors & Retailers who are also entitled to get wholesale rate of goods invoiced.</p> <p>Given the significance and complexities involved in the accounting of Revenue, appropriate recognition of revenue has been considered as a key audit matter.</p>	<ul style="list-style-type: none"> • Assessed the environment of the measurement as well as other relevant systems supporting the accounting or revenue. • Assessed manual as well as application controls supporting revenue recognition. • Assessed the invoicing and measurement systems up to entries in the general ledger. • Examined customer invoices and receipts of payment on a test basis. • Assessed the design of the processes set up to account for the transactions in accordance with the new standard. • Assessed whether the sufficiency of disclosures as required by the new standard have been met. • Assessed whether the sufficiency of disclosures as required to be made to opening balances due to the adoption of the new standard.

Reporting on other information

Management is responsible for the other information. The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the financial statements of the Company in accordance with IFRSs and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in financial statements or, if such disclosures are inadequate, to

modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

Report on other Legal and Regulatory Requirements

In accordance with the Companies Act, 1994, the Securities and Exchange Rules 1987, we also report that:

- (i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- (ii) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books;
- (iii) the statement of financial position and statement of profit or loss and other comprehensive income together with the annexed notes dealt with by the report are in agreement with the books of account and returns;
- (iv) the expenditures incurred were for the purpose of the Company's business;

3.00 Risk Exposure**Interest rate risk**

Interest rate risk is the risk that Company faces due to unfavorable movements in the interest rates. Changes in the government's monetary policy, along with increased demand for loans/ investments tend to increase the interest rates. Such rises in interest rates mostly affect companies having floating rate loans or companies investing in debt securities.

Management perception

The Company maintains low debt/ equity ratio and accordingly, adverse impact of interest rate fluctuation is insignificant. Considering the global economy and inflection of overseas financing, financial institutions in Bangladesh reducing lending rate creating an opportunity for saving in financial cost.

Exchange rate risk

Exchange rate risk occurs due to changes in exchange rates. As the Company imports materials and equipment from abroad and also earns revenue in foreign currency, unfavorable volatility or currency fluctuation may affect the profitability of the Company. If exchange rate increases against local currency, opportunity arises for generating more profit.

Management perception

The company purchase raw materials and sells finished product mostly in US\$ currency and the transaction would settle within very short period. Therefore, volatility of exchange rate will have no impact on profitability of the Company.

Industry risks

Industry risk refers to the risk of increased competition from foreign and domestic sources leading to lower prices, revenues, profit margin, and market share which could have an adverse impact on the business, financial condition and results of operation.

Management perception

Management is optimistic about growth opportunity in adhesives sector in Bangladesh. Furthermore, there is untapped international market.

Market risks

Market risk refers to the risk of adverse market conditions affecting the sales and profitability of the company. Mostly, the risk arises from falling demand for the product or service which would harm the performance of the company. Most of our product is used as Industrial backward linkage Adhesives & Glue for producing & linking of Furniture, Door & Board. So it has a little risk/chance to fall our business. On the other hand, strong marketing and brand management would help the company increase their customer base.

Management perception

Management is fully aware of the market risk and act accordingly. Market for adhesives products is decent. Moreover, the company has a strong marketing and brand management to increase the customer base and customer loyalty.

Operational risks

Non-availabilities of materials/equipment/services may affect the smooth operational activities of The Company. On the other hand, the equipment may face operational and mechanical failures due to natural disasters, unforeseen events, lack of supervision and negligence, leading to severe accidents and losses.

Management perception

The company perceives that allocation of its resources properly can reduce this risk factor to great extent. The Company hedges such risks and also takes preventive measures therefor.

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price.

Management perception

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Typically, management ensures that it has sufficient cash and cash equivalent to meet expected operational expenses, including the servicing of financial obligation through preparation of the cash forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date.
